

ELPA and MICROB-PREDICT present:

**First online patient event of the MICROB-PREDICT project
on 8th July 2020, 10:30-11:30 AM:**

Organizing committee:

Marko Korenjak, ELPA President

Dr. Minneke Coenraad, gastroenterologist-hepatologist Leiden University Medical Center,
The Netherlands, dissemination manager MICROB-PREDICT

Prof. Dr. Dr. med. Jonel Trebicka, professor of Hepatology Goethe University Frankfurt, Germany,
principal investigator MICROB-PREDICT, EF Clif, Barcelona, Spain

On behalf of the MICROB-PREDICT consortium

[Register with your name and e-mail address via office@elpa.eu](mailto:office@elpa.eu)

Dear representatives of the national patients associations,

*We kindly invite you for the first online patient event of the MICROB-PREDICT project, at Wednesday
July 8th, 10:30-11:30 AM, available via <https://us02web.zoom.us/j/83333918539>*

In the MICROB-PREDICT project, led by Prof. Dr. Jonel Trebicka, 22 European institutions join forces to improve the prevention and treatment of cirrhosis. We aim to identify microbiome-based biomarkers and mechanisms that predict when the body can no longer compensate for the dysfunctional liver (decompensated cirrhosis), when decompensated cirrhosis will progress to acute-on-chronic liver failure (ACLF), and patient's individual treatment response. We strive to develop novel diagnostic tools, based on the newly identified biomarkers, for earlier and better patient stratification and to establish personalized and effective treatment strategies. We would like to inform you on this project and its implications for the future management of patients with cirrhosis and discuss with you how to best disseminate this information in the national patient associations. We look forward to meeting you virtually at July 8th!

Prof. Dr. Jonel Trebicka, principal investigator

Dr. Minneke Coenraad, dissemination manager

Programme:

Chair: Marko Korenjak

10:30-10:35	Welcome and introduction – Marko Korenjak
10:35-10:40	Short case presentation of decompensated cirrhosis / ACLF from a patient perspective – Marko Korenjak
10:40-10:55	The MICROB-PREDICT project – Jonel Trebicka
10:55-11:05	“Alb-trial”, the clinical trial nested in MICROB-PREDICT – Aleksander Krag
11:05-11:15	Dissemination activities: How to involve patients associations – Minneke Coenraad
11:15-11:27	Discussion moderated by Marko Korenjak
11:27-11:30	Wrap-up – Marko Korenjak
